FOREWORD

Agriculture continues to be a highly labour intensive activity with more than 55% of the workforce in the country dependent on it (Census 2011). Wage labour constitutes an important part of the total cost of production of agricultural produce and it is, therefore, of relevance to both policy makers and practitioners to know the trends and patterns of agricultural wages, for both skilled and unskilled work.

The Directorate of Economics and Statistics, Ministry of Agriculture & Farmers Welfare has been publishing statistics related to "Agricultural Wages in India", since 1952. The present issue of this publication contains data on wages paid to different types of agricultural and skilled rural labour in selected villages during the crop year 2013-2014. Information related to a range of agricultural operations like ploughing, sowing, weeding reaping and harvesting has been included. Data is collected from the village level and is compiled at the district level, state level and the national level. This publication provides information on wage levels for agricultural activities in different States, for different crops and across different seasons. The seasonality in agricultural wages is clearly visible. The publication also provides state-wise average daily wages of men and women engaged in agricultural activities. It is of concern that women across the country are paid less than men for the same activities. This rich database facilitates inter-state and intra-state comparisons.

Bringing out this edition of the Agricultural Wages in India has involved detailed, meticulous work which has been carried out by the Agricultural Wages Division of this Directorate. We are grateful to the State Governments which have sent information to the Directorate and would request those that have not been providing the requisite information to do so, so that it could be incorporated in the next publication. Timely and authentic data on agricultural and rural wages would help in appropriate policy formulation.

It is hoped that this volume would be useful for a wide range of researchers and policy makers. We would welcome suggestions for improvement.

(S. K. Mukherjee)

PREFACE

Directorate of Economics & Statistics, Ministry of Agriculture & Farmers Welfare has been bringing out the publication on “Agricultural Wages in India” on the basis of returns received from the State Governments since 1952. This issue of the “Agricultural Wages in India” relates to the statistics of wages paid during the crop - year 2014-2015 to different types of agricultural and skilled rural labour in selected villages.

The wage data has been compiled on the basis of data received from State Governments for different agricultural operations like ploughing, sowing, weeding, reaping, harvesting & so on and also skilled rural workers such as blacksmiths, carpenters.

The work of collection, compilation and presentation of wage data for this publication was carried out by the officers and staff of Agricultural Wages Division under supervision of Shri B. L. Meena, Additional Economic Adviser. Suggestions for improvement are most welcome.

(Pushpa Thottan)

Overview

Introduction

Wages constitute a major component of cost of cultivation in the country, because of the labour intensive nature of agricultural operations. Like any other commodity, price of labour i.e. wage is also determined by market forces of supply and demand and further, as in any other market, labour market imperfections make it deviate from the norms. These factors also explain the wide variations in wage rates among various states.

Time Lag

Wage data for agricultural operations is collected by State Government at the village level and compiled at district and states level. State Governments are requested to supply wage data timely to this Directorate. However, some States viz Uttrakhand, West Bengal, Bihar, Jharkhand and Maharashtra have not furnished their data in time for this publication. The Directorate is making every possible effort for getting the data on time and decreasing the lag with which this publication is brought out.

Main Observations

The all India annual average daily wage rate for field labour (male) (Table: 1.1), during 2014-15, was ₹268/day, with Kerala paying the highest wage to field labour (male) ₹535/day, while Maharashtra figured as the lowest wage payer among all states with ₹152/day.

Average daily wage rate for field labour (female) at all India and State level (Table: 1.2) also showed almost the same trend. Kerala paid the highest wage to field labour (female) i.e. ₹405/day, Maharashtra paid the lowest wage i.e. ₹100/day. All-India annual average wage rate was ₹204/day. The variation between wages of male and female agricultural labourer for the same category of work has been observed and it is 31 per cent at all India level. Table 1.2 also highlights that female workers are not involved in Punjab as agricultural labour.

In case of skilled labour, highest wage rate i.e. ₹711/day and lowest wage rate i.e. ₹122/day were paid in Kerala and Maharashtra respectively. At all India level, the wage rate is ₹340/day (Table: 1.3).

State Variation

Very High state variations are observed from the reports. In case of field labour male, the highest paid wages in Kerala is about 252 per cent more than that of the lowest in Maharashtra and about 100 per cent more than the all India average daily wages. In case of female field labour, the highest paid wages in Kerala also is about 305 per cent more than that of the lowest in Maharashtra and about 99 per cent more than the all India average daily wages. The above variations clearly reflect the scenario of availability of labour, arduousness, cost of living of the workers, geographical location of work and other factors of states, which play an important role to determine the wage rate in a location. While variations in wage rates between states can be explained by the interplay of market forces and degree of market imperfections, these variations may also be due to continued stickiness in labour, as people prefer to work in the area where they live.

Gender Gap in Wage Rates

National annual average wage rate for male and female for field labour was ₹268 and ₹204 respectively. Hence, the male workers were paid 31 per cent more than that of female workers. Among the states, gender gap, in term of wage, is also observed. Tamil Nadu with about 133 per cent and Bihar with about 5 per cent are observed as the highest and the lowest gender gap states respectively.

Appendix. III

Methodology of Collection of Wage Rate for Agricultural and Skilled Rural Labour

The data on agricultural wage rate and skilled rural wage rate is collected once or twice in a month at block level from one or two representative villages and only average data of those collected twice or of two villages are reported to the district. One or more casual labourers and farmers are primary informants for collection of data on wage rates. Where ever the informants' numbers are high, average of data is taken in to account. The data on normal working hours (8 hours) and the prevailing wage rates in cash and kind for the reported working hours are collected gender-wise. As regards mode of payment of wages, it is made in both ways i.e. in cash and/or in kind. Payments in kind are very common in rural areas which include foodgrains, cooked food, tea, fuel, cigarette, biri, etc. Wages reported in kind are evaluated at local market retail prices. The wage rate data is collected for various agricultural operations like ploughing, sowing, weeding, reaping, harvesting, transplanting, winnowing cleaning silt, digging well, embankment, carrying load etc and other rural wage rate for carpenter, blacksmith and cobbler.

The officials at block level entrusted to collect data on wage rate from primary informants are of different designations in different states. Assistant Statistical Officer, Patwari, Circle Inspector, Block Statistical Supervisor and Statistical Field Inspector etc are common in most of the state. The authority at state level, who supplies the rate, is also different in different states like, Directorate of Economics & Statistics, Department of Economics & Statistics, Labour Commissioner, Directorate of Agriculture, Office of Land Record etc.

After scrutiny and consolidation, the authorities at district Head Quarters forward the report to their respective State Head Quarters which in turn is sent to DES so that the information is received in DES positively by the end of the second week of the succeeding month.

Appendix-IV

EXPLANATORY NOTES

- (1) Agricultural wages constitute one of the major items of cost of cultivation of agricultural crops. Consequently, data on agricultural wages prevailing in selected villages/centres, spread over the length and breadth of the country, is collected by the Directorate of Economics & Statistics (DES), Ministry of Agriculture & Farmers Welfare, on monthly basis.
- (2) Data relate to agricultural year, i.e. July – June.
- (3) Simple arithmetic averages (monthly and annual) have been worked out on the basis of data received on daily wages for different villages/centers as reported in the monthly returns from the State Governments.
- (4) Directorate of Economics & Statistics compiles wage data for the following categories for different operations: (a) Skilled Labour – carpenter, blacksmith and cobbler, (b) Field labour -ploughing, sowing, weeding reaping & harvesting, (c) Other Agricultural Labour – watering, carrying load, cleaning silt, digging well embarkation, tilling, plucking etc. and (d) Herdsman
- (5) The States of Andhra Pradesh, Jharkhand, Karnataka and Maharashtra, do not give operation-wise details as they furnish the data for the group (i.e. field labour) as a whole. All the remaining States figuring in the present publication furnish operation-wise data.
- (6) Normal daily working hours do not exceed 8 hours in any of the reporting villages/centers.
- (7) The proforma prescribed for the purpose is at Appendix I & Appendix II.
- (8) The data, as per the prescribed proforma, is collected on monthly basis. The primary reporting agencies are required to send the returns pertaining to a particular month, by 2nd of the succeeding month, to the concerned district headquarters. After scrutiny and consolidation, the authorities at district Headquarters forward the data to their respective State Headquarters, which in turn send them to DES so that they receive the information by the end of the second week of the succeeding month.
- (9) The wages paid could either be in cash or in kind or in both cash and kind. Hence, the total of the wages in cash as well as the money value of the wages paid in kind are given in the proforma.
- (10) Data given in the publication is collected from each district of the State. However, some of the States/UTs have not been sending the information. And in respect of the States which are sending the data, the coverage i.e. the number of Districts and villages/centres covered is not sufficient. They are being requested to enlarge the coverage.
- M – Man
- W – Woman
- denotes data not available.
