

AGRICULTURAL WAGES
IN
INDIA
2010-11

DIRECTORATE OF ECONOMICS AND STATISTICS
DEPARTMENT OF AGRICULTURE AND CO-OPERATION
MINISTRY OF AGRICULTURE
GOVERNMENT OF INDIA
NEW DELHI

Foreword

The Directorate of Economics and Statistics, Ministry of Agriculture has been publishing statistics related to "Agricultural Wages in India", since 1952. The present issue of this publication contains data on wages paid to different types of agricultural labour in selected villages during the crop year 2010-2011.

Agriculture continues to be a highly labour intensive activity with more than 50 percent of the workforce in the country dependent on it (Census 2011). Wage labour constitutes an important part of the total cost of production of agricultural produce. It is, therefore, of relevance to both policy makers and practitioners to know the trends and patterns of agricultural wages, for both skilled and unskilled work. This publication of the Directorate of Economics and Statistics provides information on wage levels for agricultural activities in different States, for different crops and across different seasons. The publication presents a broad spectrum of agricultural wage data prevailing in different villages in the country for a range of agricultural operations like ploughing, sowing, weeding reaping, harvesting etc. It also provides state-wise average daily wages of male and female workers. It clearly brings out the seasonality in agricultural wages.

I am grateful to the States who have sent information to the Directorate and would request those that have not been providing the requisite information to do so so that it could be incorporated in the next publication.

The preparation of this publication has involved meticulous work which has been carried out by the Agricultural Wages Division of this Directorate under the able guidance of Ms. Rugmini Parmar, Adviser. I am grateful to her and Shri B.L.Meena, Additional Economic Adviser and their entire team for the time and effort they have devoted to making this a very useful and reliable publication.

I hope that the publication will be useful to policy makers, administrators and researchers involved in the development of agricultural sector in the country.

I look forward to comments and suggestions to improve this publication in future.

PREFACE

Directorate of Economics & Statistics, Ministry of Agriculture has been bringing out the publication on "Agricultural Wages in India" on the basis of returns received from the State Governments since 1952. This issue of the "Agricultural Wages in India" relates to the statistics of wages paid during the crop year 2010-2011 to different categories of agricultural and skilled rural labour in selected villages.

The wage data has been compiled on the basis of data received from State Governments for different agricultural operations like ploughing, sowing, weeding, reaping, harvesting & other agricultural operations and skilled rural labours. Simple arithmetic average (monthly and annual) has been worked out for field labour (male), field labour (female) and skilled labour (male).

The work of collection, compilation and presentation of wage data for this publication was carried out by the officers and staff of Agricultural Wages Division under supervision of Shri B. L. Meena, Additional Economic Adviser. Suggestions for improvement are most welcome.

(Rugmini Parmar)
Adviser

The following officers and staff of the Directorate are associated with the preparation of this publication:

EXPLANATORY NOTES

(1) Agricultural wages constitute one of the major items of cost of cultivation of agricultural crops. Consequently, data on agricultural wages prevailing in selected villages/centres, spread over the length and breadth of the country, is collected by the Directorate of Economics & Statistics (DES), Ministry of Agriculture, on monthly basis.

(2) Data relate to agricultural year, i.e. July – June.

(3) Simple arithmetic averages (monthly and annual) have been worked out on the basis of data received on daily wages for different villages/centers as reported in the monthly returns from the State Governments.

(4) Directorate of Economics & Statistics compiles wage data for the following categories for different operations: (a) Skilled Labour – carpenter, blacksmith and cobbler, (b) Field labour -ploughing, sowing, weeding reaping & harvesting, (c) Other Agricultural Labour – watering, carrying load, cleaning silt, digging well embarkation, tilling, plucking etc. and (d) Herdsman

(5) The States of Andhra Pradesh, Jharkhand, Karnataka and Maharashtra, do not give operation-wise details as they furnish the data for the group (i.e. field labour) as a whole. All the remaining States figuring in the present publication furnish operation-wise data.

(6) Normal daily working hours do not exceed 8 hours in any of the reporting villages/centers.

(7) The proforma prescribed for the purpose is at Appendix I & Appendix II.

(8) The data, as per the prescribed proforma, is collected on monthly basis. The primary reporting agencies are required to send the returns pertaining to a particular month, by 2nd of the succeeding month, to the concerned district headquarters. After scrutiny and consolidation, the authorities at district Headquarters forwarded them to their respective State Headquarters which in turn send them to DES so that they receive the information positively by the end of the second week of the succeeding month.

(9) The wages paid could either be in cash or in kind or in both cash and kind. Hence, the total of the wages in cash as well as the money value of the wages paid in kind to be given in the proforma.

(10) Data given in the publication is collected from each district of the State. However, some of the States/UTs have not been sending the information. And in respect of the States which are sending the data, the coverage i.e. the number of Districts and villages/centres covered is not sufficient. They are being requested to enlarge the coverage.

M – Man

W – Woman

– denotes data not available.

Average Daily Agricultural Wages in 2010-11

Wages constitute a major component of cost of cultivation in the country, because of the labour intensive nature of agricultural operations. Like any other commodity, price of labour i.e. wage is also determined by market forces of supply and demand and further, as in any other market imperfections make it deviate from the norms. These factors also explain the wide variations in wage rates among various states. Data on annual average daily wage rate for field labour (male) at all India and State level (Table: 1.1) shows that the all India annual average wage rate during 2010-11 as Rs. 147.91/day, with Kerala paying the highest wage to field labour (male) i.e. Rs. 305.96/day, while Chhattisgarh figured as the lowest wage payer among all states i.e. Rs. 85.26/day. Agriculture is a seasonal occupation with clearly defined peak and lean seasons, and this phenomenon has also been clearly brought out in the Table, with wage within States varying between months. Month wise average daily wage rate remained around Rs. 140/day for month of July to October; Rs. 149/day for November to March and Rs. 158/day for April to June. Comparatively low wage rate is prevailed during lean agricultural season and rainy season. In peak agricultural season high wage rate was given due to higher demand of labour for sowing and harvesting.

Average daily wage rate for field labour (female) at all India and State level (Table: 1.2) is also showed the same trend. Kerala paid the highest wage to field labour (female) i.e. Rs. 235.92/day, Chhattisgarh paid the lowest wage i.e. Rs. 66.5/day. All-Indian annual average wage rate was Rs. 115.02/day. During lean agricultural season, wage rate ranged from Rs. 115.69 to Rs. 126.51. A noticeable trend is the variation between wages of male and female agricultural labourer for the same category of work.

In case of skilled labour, highest wage rate i.e. Rs. 419.62/day and lowest wage rate i.e. Rs. 131.53/day were paid in Kerala and Chhattisgarh respectively. At all India level, the wage rate is Rs. 201.78/day (Table: 1.3). Wage differential between lean and peak season was discernible in the skilled labour category also During July to October (lean season), wage rate for skilled labour was comparatively low because during monsoon season the demand of skilled labour falls. The average wage rate for November to June was, by the same analogy, higher since demand for skilled workers increases in rural areas during this period owing to higher demand for agricultural tools and equipments.

While variations in wage rates between States can be explained by the interplay of market forces and degree of market imperfections, variations in wage rates within a State between districts and within districts, between villages/centres could be seen in various Tables (Table 2.1 to 2.20), of course to lesser degree. These variations may be due to continued the stickiness in labour.

Methodology of Collection of Wage Rate for Agricultural and Skilled Rural Labour

The data on agricultural wage rate and skilled rural wage rate is collected once or twice in a month at block level from one or two representative villages and only average data of those collected twice or of two villages are reported to the district. One or more casual labourers and farmers are primary informants for collection of data on wage rates. Where ever the informants' numbers are high, average of data is taken in to account. The data on normal working hours (8 hours) and the prevailing wage rates in cash and kind for the reported working hours are collected gender-wise. As regards mode of payment of wages, it is made in both ways i.e. in cash and/or in kind. Payments in kind are very common in rural areas which include foodgrains, cooked food, tea, fuel, cigarette, biri, etc. Wages reported in kind are evaluated at local market retail prices. The wage rate data is collected for various agricultural operations like ploughing, sowing, weeding, reaping, harvesting, transplanting, winnowing cleaning silt, digging well, embankment, carrying load etc and other rural wage rate for carpenter, blacksmith and cobbler.

The officials at block level entrusted to collect data on wage rate from primary informants are of different designations in different states. Assistant Statistical Officer, Patwari, Circle Inspector, Block Statistical Supervisor and Statistical Field Inspector etc are common in most of the state. The authority at state level, who supplies the rate, is also different in different states like, Directorate of Economics & Statistics, Department of Economics & Statistics, Labour Commissioner, Directorate of Agriculture, Office of Land Record etc.

After scrutiny and consolidation, the authorities at district Head Quarters forward the report to their respective State Head Quarters which in turn is sent to DES so that the information is received in DES positively by the end of the second week of the succeeding month.
